Marquis of Queensberry Rules.

RULE 1.—The weights for all pugilists who contend in glove contests shall be as follows : For heavy weights, over 158 lbs.; middle, under 158 lbs. and over 140 lbs.; light, under 140 lbs.

RULE 2.—All contests to be decided in a twenty-four foot ring, which must be erected on the ground or stage.

RULE 3.—No wrestling or hugging allowed. The rounds to be of three minutes' duration and one minute time.

RULE 4.—Each contestant shall select an umpire, and they shall appoint a referee.

RULE 5.—In all contests two time-keepers shall be appointed, and the referee, under no circumstances, shall keep time.

RULE 6.—During the contest, if either man falls, through weakness or otherwise, he must get up unassisted, ten seconds being allowed him to do so, the other man meanwhile to retire to his corner; and when the fallen man is on his legs the round is to be resumed and continued until the three minutes have expired; and if one man fails to come to the scratch in the ten seconds allowed, it shall be in the power of the referee to give his award in favor of the other man.

RULE 7.—A contestant hanging on the ropes in a helpless state, with his toes off the ground, shall be considered down. No seconds, or any other person but the referee, to be allowed in the ring.

RULE 8.—Should the contest be stopped by any unavoidable interference, the referee, if appointed, or else the stakeholder, shall name the next time and place for finishing the contest, as soon as possible, so that the match must be either won or lost.

RULE 9.—When either pugilist is knocked down within the allotted three minutes, he shall be allowed ten seconds to get on his feet again unassisted, except when this occurs in the last ten seconds.

RULE 10.—One minute's rest shall be allowed between each round, and no wrestling, roughing or struggling on the ropes shall be permitted.

RULE 11.—The gloves to be fair-sized boxing gloves of the best quality and new. Should a glove burst or come off, it must be replaced to the referee's satisfaction. A man on one knee is considered down, and if struck is entitled to the stakes. No shoes or boots with spikes allowed.

RULE 12.—In all matches the stakes not to be given up until won or lost by a fight. That if a man leaves the ring, either to escape punishment, or for any other purpose, without the permission of the referee, unless he is involuntarily forced out, shall forfeit the battle.

RULE 13.—That any pugilist voluntarily quitting the ring, previous to the deliberate judgment of the referee being obtained, shall be deemed to have lost the fight.

RULE 14.—That the seconds shall not interfere, advise or direct the adversary of their principal, and shall refrain from all offensive and irritating expressions, in all respects conducting themselves with order and decorum, and confine themselves to the diligent and careful discharge of their duties to their principals.

RULE 15.—If either man shall wilfully throw himself down without receiving a blow, whether blows shall have previously been exchanged or not, he shall be deemed to have lost the battle; but that this rule shall not apply to a man who, in a close, slips down from the grasp of his opponent to avoid punishment, or from obvious accident or weakness. The battle-money shall remain in the hands of the stakeholder until fairly won or lost by a fight, unless a draw be mutually agreed upon, or in case of a postponement one of the principals shall be absent, when the man in the ring shall be awarded the stakes.

RULE 16.—In contests in which contestants agree to box four, six, or a stipulated number of rounds, the referee shall have full power to order the men to continue, if it has not been decided during the four, six or number of rounds stipulated by one or the other of the pugilists stopping, losing by a foul, or being beaten.

B. F. Shibe's Pneumatic Boxing Gloves.

Patented January 1st, 1895.

This Glove is made on an entirely different method from the ordinary kind, being inflated with air instead of stuffed with hair, which renders it perfectly harmless. No matter how hard the blow delivered, there is no danger of the one receiving it being injured.

Laws have been passed in various sections of the country prohibiting boxing exhibitions, the claim being there is too much brutality in it. This objectionable feature is entirely eliminated by using the Pneumatic Glove. It will also enable those to indulge in boxing who are too timid, or unwilling to expose themselves to bodily injury.

Leading teachers of sparring, as well as pugilists, pronounce it the most desirable and practical glove yet invented.

Price per set, \$12.00

Bag Punching Rules.

A Philadelphian has drawn up the following rules to govern bag punching contests :

1. Each contestant may use his own bag and platform, and is not to be restricted as to size, shape, weight or height.
2. Time of bout must be limited to ten minutes, each contestant using as little or as much of such time as he sees fit.
3. Contests should be decided by two judges and a referee or by a referee only, but the former is preferable.

The points to be worked for are seven, and the contestant excelling in any four or these is to be declared the winner, the points being as follows :

1. Excellency of position, style and execution.
2. Straight right and left leads and follows.
3. Right and left hooks, swings and hard hitting.
4. Rapid hitting, ducks and foot work.
5. Head, elbows and shoulder work.
6. Ingenuity in combination of blows.
7. Rapidity of work.
